# Education KPA Vision Statement

The City of Lee's Summit and its educational partners through regional collaboration and dynamic planning meet the lifelong learning needs of its citizens.

# Goals and Objectives

- Cradle to Grave: Increase funding of education from early childhood to workers training and senior learning classes.
- Increase cooperation and open communication between the City and the School systems.
- Increase Civic education and leadership opportunities for youth and families in Lee's Summit
- Promote lifelong learning

# Goals and Objectives

- More internships or apprenticeships should be available to High School and University students through our local business community.
- Establish a 4 year university or expand Longview College in Lee's Summit.
- Continued adult educational opportunities: job training, career training, graduate program expansion opportunities
- Increase funding from State and Federal Governments for local schools while maintaining fiscal responsibility in the schools.
- Continuously monitor and anticipate education trends in the region
